

MATERIAL SAFETY DATA SHEET

FAST CURE PART A

Date of Issue: March 1 2024

4. First aid Measures

Eye Contact: Immediately flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. Get medical attention.

Skin Contact: Wash with soap and water. If signs/symptoms develop, get medical attention.

Inhalation: Remove person to fresh air. Get medical attention.

Ingestion: Seek medical attention.

5. Fire Fighting Measures

Fire Fighting Media: Dry chemical, carbon dioxide, alcohol foam, water fog.

Special Fire-Fighting Procedures: As in any fire, firefighters should wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

6. Accidental Release Measures

Personal precautions, protective equipment and procedures : Evacuate area. Keep away from heat/sparks/open flames/hot surface.-No smoking Use only non-sparking tools. Ventilate the area with fresh air. Refer to other section of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

Environmental precautions: Avoid release to the environment

Methods material for Containment and cleaning up: If possible, seal leaking container. Place leaking containers in a well-ventilated

area, preferably an operating exhaust hood, or if necessary outdoors on an impermeable surface until appropriate packaging for the leaking container or its contents is available. Cover spill area with a fire-extinguishing foam. An appropriate aqueous film forming foam (AFFF) is

recommended. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. does not remove a toxic, corrosivity or commercially available inorganic absorbent

MATERIAL SAFETY DATA SHEET

material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a toxic, corrosivity or flammability hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a metal container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Collect the resulting residue containing solution. Seal the container. Dispose of collected material as soon as possible.

7. Handling And Storage

Precautions for safe handling: Keep out of reach of children. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surface.-No smoking. Do not spray on an open flame or other ignition source. Pressurized container :Do not pierce or burn ,even after use .Do not breathe/dust/fume/gas/mist/vapours/spray Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Use personal protective equipment(eg. gloves, respirators) as required. Vapours may travel long distances along the ground or floor to an ignition source and flash back. Do not use in a confined area or areas with or no air movement.

Conditions for safe storage Protect from sunlight. Do not expose to
including any incompatibilities: temperatures exceeding 50° C/122F.
Store in a well-ventilated place. Keep container tightly closed. Store away

MATERIAL SAFETY DATA SHEET

FAST CURE PART A

Date of Issue: March 1 2024

Flash Point:	93°C
Melting Point	Not Applicable
Vapor Pressure:	Not Applicable
Vapor Density:	Not Applicable
Solubility In Water:	Not Applicable
Specific Gravity(H₂O=1):	Not Applicable
Density:	1.02-1.10g/cm ³
Viscosity:	10cps-20000cps/25° C
pH:	Not Applicable
Freezing Point:	Not Applicable
Molecular Weight:	Mixture, Not Applicable

10. Stability And Reactivity

Chemical Stability: This material is chemically stable under normal and storage and handling conditions

Hazardous Polymerization: Hazardous polymerization will not occur

11. Toxicological Information

Chronic Toxicity: None know

Carcinogenic Effects: None know

Mutagenic Effects: None know

Teratogenic Effects: None know

Developmental Toxicity: None know

Acute Effects on Humans: May cause skin, eye, and respiratory irritation

Sensitization: Repeated or prolonged exposure to the substance at concentration above the exposure limits may cause respiratory tract and lung sensitization.

12. Ecological Information

Ecotoxicity: No data available, however the material is not expected to have any deleterious toxic effects LD50 1230mg/kg(RAT). LC50 EC50 no data

Environmental Fate: No data available regarding the environmental fate or biodegradation

13. Disposal Considerations:

Product-Recommendation: Consult state, local or national regulations to ensure proper disposal.

Uncleaned

Packagings-Recommendation: Disposal must be made according to
